SKILLS

- JavaScript ES6 / jQuery / React
- Testing and maintenance
- HTML / XHTML
- CSS / Bootstrap
- Node / NPM / REST API / Express
- MySQL/PHP MVC / XML / JSON
- GitHub / Software deployment
- Software documentation

PROFESSIONAL SUMMARY

Expert software development professional with proven skills in project management, coding, and testing. Brings 6 years of experience in building robust, well-performing applications matching specifications and exceeding expectations. Seeks out opportunities to expand skills and improve designs. Detail-oriented, organized, and meticulous employee. Works at a fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

WORK HISTORY

Software Engineer 03/2022 - Current
EasyDeploy - Doha Qatar, Qatar

- Collaborated with team members to create applications' system analyses based on client requirements.
- Conducted JavaScript and object-oriented programming using open-source technologies.
- Administered networks and multi-user interfaces.
- Wrote and implemented robust test cases for legitimate environment application testing.
- Enhanced existing software systems and legacy platforms.
- Tracked down and resolved bugs in fast-paced production environment.
- Responsible for web development in gathering requirements, design, development, testing, and deployment.
- Extensive experience in creating style guides, and best practices and setting UI standards for enterprise/consumer applications using Bootstrap.
- Developed single-page applications for web pages and mobile applications using Node JS, Bootstrap, HTML5, and CSS3.
- Used Postman API to get convenient, visual display of query results.
- Utilized Node.js to do relevant backend.
- Used Bootstrap framework and media queries for developing customizable and responsive web designs for compatibility with different platforms and screen sizes.
- Applied web services and REST API design best practices to deliver stable systems.
- Produced graphics and layouts with strong GUI design and user interaction knowledge.
- Adapted to different languages and technologies based on project requirements.
- Collaborated with team members to create applications' system analysis based on client requirements.
- Oversaw Web APIs and cloud security performance.

Software Engineer 06/2020 - 01/2022
Dataflex Nigeria Limited. - Lagos, Nigeria.

- Designed Web application layouts and forms using HTML, CSS, and JavaScript.
- Responsible for transforming design mock-ups to W3C standards-compliant HTML pages using HTML, and CSS.
- Performed client-side validations using JavaScript.
- Worked with Chrome extension Postman REST Client, HTTP client for testing web services.
- Responsible for setting up React.js framework to achieve data binding between HTML5 and JavaScript objects.
- Knowledge of rendering large data sets on application view using React.JS
- Utilized MySQL to easily store recipe reviews and review comments in single recipe document.
- Developed Web API using Node.JS and hosted on multiple load-balanced API instances.
- Worked extensively on building JavaScript profiles for requirements that are given by customers.
- Statistics Inference Designed functionality of website and worked as backend Greater Theoretical developer using MySQL.
- Connected server and database to update data information with Node.js.
- Good experience in using Scaffolding tools like GIT and NPM.
- Developed single page application by using React.js backed by MongoDB and Node.JS
- Operated in virtualised environment using Docker and Kubernetes.
- Collaborated with customers to identify and resolve issues.
- Established reliable source control and software deployment systems.
